

## **d line – architectural hardware design**

A comprehensive hardware offering from the **d line** total solution series – designed by world-renowned Danish architect, Professor Knud Holscher. The product series transcends through unrivaled craftsmanship and refinement through sleek lines, and the tight bend unique only to **d line**. Our passionate people are excited to welcome you to a world of architect-designed hardware.

### **Partnering with us**

**d line** has great market potential in metropolises, where the architectural building industry is particularly active. We are currently looking for partners in Eastern Europe and Russia among other places. Are you a well-established distributor with strong market insight and a passion for Danish design? Then meet us at our stand for a casual talk about our partner possibilities.

### **Can you fit a door lever in 7 seconds?**

We introduce *Fit in 7 Seconds* – the world's most cost-effective installation of lever handles. Test the solution and have your shot at breaking the current world record: 2.88 seconds!
